3. Daily Workflow: Managing Inquiries & Payments

Here is the simple, step-by-step routine for handling guest reservations from initial inquiry through to check-in:

📋 Reservation & Payment Lifecycle Overview

1. Guest requests dates on website → Instant email alert arrives in your inbox.
2. Open Sanity Studio → Click 'Send Deposit Request Email' with 1 click.
3. Guest transfers deposit via BACS → Click 'Mark Paid & Confirmed ✓' (Calendar locks).
4. 14 days before arrival → Final balance reminder or key safe arrival pack is dispatched.

Step 1: Receiving a New Booking

When a guest chooses dates on your website and submits an inquiry:

- You receive an instant email notification summarizing the guest's name, phone, email, dates, party size, dogs, and total price.
- The inquiry appears under **Booking Engine $\rightarrow$ Cottages $\rightarrow$ [Plas Hafod or Bryn Bugeiliaid Bach] $\rightarrow$ Bookings**.
- The status badge will show: `NEW INQUIRY`.

Step 2: Reviewing the Inquiry

1. Click on the guest's booking record to open it.
2. Review their dates, number of guests, and any personal notes in the **Guest Notes & Special Requests** field.

Step 3: Sending the Deposit Request (1-Click Dispatch)

Right inside the booking card, you will see the **Deposit Request & BACS Payment Dispatcher**:

1. *(Optional)* Add a personal greeting in the **Personal Host Message** box (e.g., "*We'd be delighted to welcome you and your spaniel to Nebo!*").
2. Click the dark button: **Send Deposit Request Email**.
3. The system instantly delivers a professional, branded payment email to the guest with:
   - Your bank name, sort code, and account number.
   - Their exact 25% deposit amount.
   - Their unique payment reference (e.g., `PH-2611-JONES`).
   - A 48-hour provisional hold notice.
4. The inquiry status updates to: `DEPOSIT SENT`.

Step 4: Confirming the Booking (Locking the Calendar)

Once the guest's deposit transfer clears in your bank account:

1. Open the booking in Sanity.
2. Click the green button: **Mark Paid & Confirmed ✓**.
3. **What happens automatically**:
   - The status updates to `PAID & CONFIRMED`.
   - The booking dates are **instantly blocked on the website calendar**, so no other guest can book those nights.

Step 5: Handling the Final Balance & Check-in Guide

Two weeks (14 days) before the guest's check-in date, the automated system evaluates the booking:

If the Guest Has Transferred Their Remaining Balance:

1. In the booking card, click: **✓ Mark Final Balance as Paid (BACS Received)**.
2. The status updates to `BALANCE PAID · KEY SENT`.
3. The automated system (or your 1-click **Send Check-in Guide Now** 🚀 button) emails the guest their complete arrival pack:
   - **Key safe code** for their cottage.

- **WiFi network name and password**.
- Step-by-step **driving directions** from Penygroes to Nebo.
- Check-in (4:00 PM) and check-out (10:00 AM) times.
- Bin day / recycling instructions.

If the Remaining Balance Is Still Unpaid:

- The system will **withhold the key safe code** for safety.
- It will automatically email the guest a friendly **14-Day Balance Due Reminder** with your BACS details and payment reference.

8. Essential Best Practices & Tips

- **Always click the green "Publish" button**: When you make an edit to any page, date, or setting, your change is saved as a draft. Click the green **Publish** button in the bottom right corner to push it live to visitors.
- **Previewing vs. Live**: Yellow marks mean you have uncommitted draft changes. Once published, the status badge turns green.
- **Need help?**: If you ever have a technical question or need assistance with custom tariffs, contact your webmaster at **Bob Morris / Clic-Cymru** (`bob@clic.cymru`).
